

TRICO® wiper products are easy to install and designed to perform under the most extreme weather conditions. Your customers count on you to keep them safe on the road. And with "Engineered by TRICO®" wiper blade products, you get the quality and performance your customers rely on. With a full range of quality wiper blades to fit virtually any vehicle on the road today, "Engineered by TRICO®" windshield wiper blades give you and your customers exactly what you're looking for, from easy installation to the latest innovations.

### **PRODUCTS / SERVICES OFFERED**

TRICO Ice, Premier Wiper Blade, Advantage Wiper Blade, Rear Blade

### **BEST FEATURE**

TRICO Ice – Ruggedly constructed armor protects blade from severe weather. One-piece, flexible design conforms snugly to all windshields.

PREMIER Wiper Blade – Curved steel beam provides uniform pressure for the clearest wipe. Exclusive dual-point coupler helps eliminate streaking.

ADVANTAGE Wiper Blades – Engineered for better contact on highly curved windshields. Precision-cut rubber edge provides superior wiping performance.

REAR Wiper Blade – Engineered to meet or exceed original equipment specifications. Looks and functions like original equipment.
